Farina Floriana

Curriculum Vitae

Personal Information

Date of birth	4th December 1989
Address	4, Via Giuseppe di Vittorio, Settimo Milanese (MI), Italy
Telephone	+39 3395483342 (mobile)
E-mail(s)	floriana.farina1@gmail.com Floriana.Farina@humanitasresearch.it

Education

September 2013 - July 2015	**Master degree** (MSc) in "Biology Applied to Biomedical Research" Faculty of Science and Technology, University of Milan, Italy 110/110 cum laude
September 2009- March 2013	**Bachelor degree** (BSc) in "Biological Sciences" Faculty of Science and Technology, University of Milan, Italy
September 2003-July 2009	Scientific high school diploma at Liceo Scientifico "Vittorio Veneto", Milano (MI), Italy

Research Experience

February 2016 - Present	**PhD Student** at Laboratory of Immunology and Inflammation of Cardiovascular Pathologies, Istituto Clinico Humanitas, Rozzano (MI) Aim of the project: Cdk5 as important key player in cancer and in the tumour microenvironment Supervisor: Manuela Quintavalle
October 2015 - February 2016	**Pre-doctoral fellow** at Laboratory of Immunology and Inflammation of Cardiovascular Pathologies, Istituto Clinico Humanitas, Rozzano (MI) Supervisor: Manuela Quintavalle
September 2014 - July 2015	**Experimental thesis** at Laboratory of vascular pathology and regenerative medicine, Centro Cardiologico Monzino, Milano (MI) Aim of the project: miR-320a, a potential biomarker in Arrhytmogenic Right Ventricular Cardiomyopathy Supervisor: Elena Sommariva
September 2009- March 2013	**Bachelor thesis** at Bioscience department, University of Milan, Milano (MI). Aim of the project: accumulation dynamics and acute and chronic toxicity of nanoparticles to *Daphnia magna*. Supervisor: Paolo Tremolada
September 2003-July 2009	Short laboratory experience at Liceo Scientifico Vittorio Veneto, Milano (MI)

Languages

Mother language: Italian
Other language: English

Fundings

AIRC (Italian Association for Cancer Research) - Three-year Fellowship - Definition of CDK5 role in tumor microenvironment - €75000
